

# Eleagron **CALCIUM NITRATE** (Fertilizer)

## Product Description:

Eleagron Calcium Nitrate Fertilizer is dense granular fertilizer which dissolves quickly and completely in water. Eleagron Calcium Nitrate Fertilizer also helps plants for tolerance to diseases infection due to cells strength. Calcium Nitrate improves cell wall leading to better quality of marketable produce. Eleagron Calcium Nitrate Fertilizer prevents cracking of Fruits and Vegetables. Eleagron Calcium Nitrate Fertilizer is free from chloride, sodium & other harmful elements of plants.

## Recommendations :

Application: Foilar spray 2-3 gms/ltr of water | Drip application 5 kg/Acre.

Eleagron CN Fertilizer also helps plants for tolerance to diseases infection due to cells strength.

## Features & Benefits:

- Calcium being a 'quality nutrient' enhances quality and shelf life of produce.
- The nitrate-nitrogen is readily absorbed by the plant and improves the efficiency of calcium uptake.
- Suitable for both foliar spraying and drip irrigation Free from Sodium and Chlorides, which may be harmful to some crops.

## Fertigation:

- Use dosage based on results of the soil analysis, crop and its growth stage.
- However, do not mix with Phosphate and Sulphate containing fertilizers.

## Note:

- For fertigation, number of application depends on crop.

### Product Composition

<b>Total Nitrogen (Ammoniacal and Nitrate Form)</b>	<b>: 15.5</b>
<b>Per Cent By Weight, Maximum</b>	
<b>Nitrate Nitrogen as N</b>	<b>: 14.5</b>
<b>Per Cent By Weight, Maximum</b>	
<b>Water Soluble Calcium (as Ca)</b>	<b>: 18.5</b>
<b>Per Cent By Weight, Maximum</b>	
<b>Matter Insoluble in Water</b>	<b>: 1.5</b>
<b>Per Cent By Weight, Maximum</b>
